

Data Visualization (1)

Haohan Chen

Last update: October 04, 2023

In this lecture, we start our adventure in Data Visualization with R. Data Visualization is arguably (one of) R's most powerful and irreplaceable functionality. A lot of data scientists (including myself) stick with R because of R's data visualization module.

You can find the concepts and R functionality for data visualization in the following two books.

- [Kabacoff] Kabacoff, Rob. Data Visualization with R. 2020. E-book: rkabacoff.github.io/datavis
- [Healy] Healy, Kieran. Data visualization: a practical introduction. Princeton University Press, 2018. E-book: socviz.co
